SD Legislative Internship Application Deadline - Oct. 11
Each session, the South Dakota Legislature employs 22 college students to serve as interns. The interns provide Legislators with the assistance during the hectic legislative session. While in Pierre, interns observe the lawmaking process in action, learn about the issues confronting the state, and may earn college credit all at the same time. This is a paid internship ($4,750).

You can apply online. Contact the BHSU Legislative Intern Coordinator Pamela.Carriveau@BHSU.edu with your questions about the application. More information can be found at http://sdlegislature.gov/Students/Intern/Default.aspx.

Become A Visible Supporter
Like the Breast Cancer awareness pink ribbon, the teal ribbon shows support for survivors of sexual assault. This sounds like a no-brainer but simply listening to and supporting a

sexual assault victim, affirming that you believe them when they come forward, and paying attention to the language that you use makes a world of difference. The teal ribbon also symbolizes eliminating sexual violence in our community. On average, 24 people per minute are victims of rape, physical violence or stalking by an intimate partner in the United States. Silence and lack of knowledge about these problems play a large part in why domestic and sexual violence continue to persist.

Student leaders at BHSU and SDSM&T created four giant pledge/support banners…one of those banners is on display all day today (Tuesday) and tomorrow (Wednesday) in the BHSU Young Center. Stop by, visit with the students…and most importantly…sign the support banner. The goal is to fill the entire banner with community signatures…a powerful support statement for survivors as well as a no-tolerance statement. All banners will be displayed at the October 12th Volleyball and Football games.

Premier Event for "Not Here, Not Anywhere" sexual violence elimination campaign to be held Oct. 12 during BHSU vs. Mines Battle for the Homestake Trophy

For the past three years, a new tradition "Not Here, Not Anywhere" has been associated with the historic Battle for the Homestake Trophy. Teal-colored awareness ribbons and wrist bands signifying a unified stance against sexual violence and support for victims will adorn fans, players and coaches at the Oct. 12 Black Hills State University football (vs. South Dakota School of Mines & Technology) and volleyball (vs. Chadron State) games. The Oct. 12 "Not Here, Not Anywhere" Premier Event also includes a special half-time presidential presentation.

The Premier Event is a unified program among the BHSU and SD Mines student leaders as well as staff and athletics from both institutions. The "Not Here, Not Anywhere" campaign seeks to engage college students and all members of the community in preventing sexual violence in the first place. In addition to BHSU and SD Mines, campaign partners include High Country Coca-Cola.

Black Hills State University is committed to creating an environment where sexual violence in any form is unacceptable and survivors are supported. This effort will support student-led efforts already underway and will focus particularly on motivating up-stander interventions.

The Legacy of Dislocation: A History of Urban Segregation in Rapid City

Event Location: Joy Center
Date: Oct. 18
Time: 1:00 p.m.

Following the closure of the City Indian Boarding School, the U.S. Department of the Interior (DOI) allowed a 1,200-acre parcel of land to be taken by a number of non-Native public and religious entities. Although the DOI intended that some of this land be given for the use of—in the language of the day—"needy Indians," not a single inch of those 1,200 acres went to Native people. This property covers much of what is today western Rapid City, which also happens to include much of the city's most valuable real estate. Heather Dawn Thompson and Dr. Eric Zimmer's presentation will explore the series of municipal, school district, county, federal decisions, and questionable land swaps which led to the consolidation of Rapid City's Native population into specific neighborhoods that have faced high degrees of socioeconomic disadvantage.
