Announcements

Administrative Information Management Services

Ellucian is the current vendor for the Regental state-wide systems of the South Dakota University System-**Banner** (for Finance, Accounting, Budget, Human Resources, Payroll and Grants) and **Colleague** (Student Information System, WebAdvisor).

The Board of Regents and their technical department, Regents Information Systems (RIS), have met with Ellucian representatives to explore areas of cost-saving and efficiency for the current Ellucian-Colleague Student Information System. Campus representatives have joined in some of these meetings to provide background and current functional processing needs. At this point the project is still in a preliminary stage of fact-finding and functionality determination.

Ellucian has recently developed Multi-Entity Processing (MEP) capability for their Banner Student XE system. The MEP functionality may lend itself to the South Dakota model of multi-university shared services environment without all the entanglements of customizations that are currently within the existing Colleague system. The MEP functionality is ONLY available in the Banner Student Information System and will not be deployed within the Colleague environment. *If it is determined that the MEP functionality will meet the needs of the South Dakota University System without costly customizations*, there is a possibility that South Dakota will embark on a migration and implementation project for a new Student Information System in the near future. No official timeline has been established and such an undertaking will require considerable time and effort by RIS and campus personnel.

Who is The Reluctant Celebrity?

Who is the Reluctant Celebrity - Crazy Horse, Kolchak Ziolkowski, Chief Henry Standing Bear, or a University and Medical Training Center by Dr. Jeffrey Wehrung

Bonus Pre-Speak! On Thursday February 16, "Who is the Reluctant Celebrity" will be hosted at the Jacket Zone at 1:30 p.m. at 617 Main Street and again at 4:00 p.m. in Jonas 110 on the BHSU Spearfish campus. Contact the Jacket Zone at 717-5801.

Korczak Ziolkowski was already a well-known artist from Boston when, in 1939, he received a letter from Chief Henry Standing Bear stating, "A number of my fellow chiefs and I are interested in finding some sculptor who can carve a head of an Indian Chief who was killed many years ago. We do not believe Borglum [the artist for Mount Rushmore] is the only living man that can do that kind of work." Little did either man know that this request would lead to construction of the world's largest sculpture, as well as a museum, cultural center, university, and medical training center.

Unfortunately, the media's focus on the Ziolkowski family over the years has distracted attention from the social mission to one day create a university and medical center dedicated to training native people. In this discussion I would like to pull apart why Korczak's celebrity occurred, how his celebrity status helped the Memorial, how his celebrity hurt the Memorial, and what the foundation should do now that Ruth Ziolkowski (the most recent celebrity for the project) has passed away.

All lectures are free and open to the public.
