Community Art Project "LINKING FENCES"

The Matthews Opera House & Arts Center and ArtCentral are excited to announce our second community project, "Connecting Our Community Through LINKING FENCES." Through this project, we are inviting the community to join us in creating community art projects on the chain link fences throughout Spearfish. We encourage the community to partner with neighbors, friends, organizations, and strangers alike to take part in LINKING FENCES.

The goal of LINKING FENCES is to engage the community in a creative project that not only adds visual interest to our town, but also uses the chain link fences that typically divide us to forge new connections. LINKING FENCES offers an opportunity for everyone to express their creativity and make new connections.

Through this CALL FOR COMMUNITY ARTISTS, ArtCentral is seeking to identify up to three (3) artists to win a cash prize of \$250 for each artist/team for the selected designs to be installed in prominent locations in our community. Themes of the proposed projects will address our ArtCentral themes of belonging and inclusion, rural connectedness, cultivating creativity, and arts as a catalyst for social impact in Spearfish. Submitted proposals will be displayed in the Matthews Art Gallery in May or June for public viewing.

Proposal requirements and full details can be found in the complete Call for Community Artists which can be downloaded at The Matthews website, <http://www.matthewsopera.com/linking-fences/>.

Proposals are due before 4 p.m. on May 2, 2017

The Matthews Opera House & Arts Center was selected in 2016 as a recipient of a \$200,000 Bush Foundation Community Innovation grant for ArtCentral, a community collaboration to centralize the arts as an integrated asset for inclusivity, economic development, and sustained outreach in the Spearfish community. Community Innovation grants support organizations, working in collaboration with others, to use problem-solving processes that lead to more effective, equitable and sustainable solutions for challenges that face their communities.

ArtCentral is a community collaboration to centralize the arts as an integrated asset for inclusivity, economic development, and outreach in Spearfish. ArtCentral was made possible through a 2016 Community Innovation Grant from the Bush Foundation.

Events

Bystander Intervention Training

The Counseling Department and Psychology Club will be presenting a bystander intervention training April 3 from 3:30pm - 4:30pm in Club Buzz. The focus of the program will be to give students the tools to intervene when they see something wrong going on. One of the social problems discussed during the program will be the issue of sexual assault and dating violence. Participants will have the opportunity to reflect on how they can use bystander intervention techniques to improve the campus dating climate and use those techniques with other social problems.

Sustainability Master Plan Open Forum

Drop in Club Buzz on Wednesday, April 5 between 10 and 11am to meet our sustainability master planners! Come learn about the master plan, ask questions, or share a suggestion!

Black Hills State University strives to be a leader in environmental sustainability in our region, state, and nation. In order to continue and expand that role, we are creating a comprehensive Sustainability Master Plan to guide BHSU's sustainability efforts over the next 10-20 years. We are working with a Nebraska based firm, Verdis Group, to lead this effort. Now is the time to get involved!

Geek Speak: Bad Bureaucrats? The Future of Whistleblowing in a Post-Snowden World by Cody Drolc

The world fundamentally changed following Edward Snowden's expose of government surveillance in 2013. Since then, critics, scholars, and citizens have weighed in on Snowden's revelations and the new relationship the American people have with their government. Many debate the legitimacy of government surveillance and ask how future whistleblowers will be protected, but they are missing the real issue. Will high-profile whistleblowers cease to exist?

Has the United States government patched the leak? These are questions that have serious implications for the future of transparency and democratic accountability.

All lectures are held in Jonas 110 at 4:00 p.m. on Thursdays and are free and open to the public.
