Opportunity Details

Business, Company, Organization Name: Raymond Innovations, LLC

Company Description: Raymond Innovations is a young startup manufacturer and e-commerce store for a revolutionary, patent pending product known as the aftermarket soft starter for electric motors and power tools. Our soft starters reduce or eliminate inrush current and provide a more gradual ramp up to full speed. This has many benefits including but not limited to eliminating nuisance breaker tripping from overloaded circuits, smaller generator requirements when off grid, extended equipment lifespan, increased operator safety and comfort, and more.

RI is currently based in Rapid City and is still operating out of the founders home/garage.
