

Health Minor

Why get a Health Minor?

A health minor is applicable to many areas of emphasis. Health is more important than ever before from early childhood to older adults. The intent of the health minor is to allow students the opportunity to explore topics related to human health and well-being. This minor can enhance personal health as well as be useful in future career areas. It prepares graduates to be lifelong participants in and advocates for healthy living.

Prepare For Your Future

The Black Hills State University provides cutting edge instruction and learning experiences to prepare you for the future. You will find everything you need to be qualified for employment or graduate school at the end of your undergraduate studies.

Learn From The Best

You will have the opportunity to learn from faculty members who care about individual students and their career goals. Faculty members work one on one with students to plan and implement their plan of study to best meet the student goals. Students will have practical application experiences and opportunities.

Enjoy The Experience

Students have the opportunity to become involved in a variety of professional and social organizations revolving around health and well-being. Past students remain in contact with faculty members and share their experiences as a former student and the solid foundation and preparation they received from BHSU.
