

Professional Accountancy

Bachelor of Science (B.S.)

It All Adds Up

Becoming a Certified Public Accountant (CPA) significantly increases your salary and advancement potential and opens a variety of doors in both the private and public sectors of the global economy!

Prepare For Your Future

The Professional Accountancy program at BHSU is a five-year program (150 credit hours) that prepares you for the Uniform Certified Public Accounting Examination as well as other specialized professional accounting examinations. This program teaches you to think critically; analyze and solve challenging accounting and business issues both individually and in a team; appreciate and embrace diversity; and strategically anticipate and adapt to change.

Learn From The Best

Students are taught by an interdisciplinary team of accomplished faculty. Many business faculty members have held management positions in business. We have faculty experienced in starting new business ventures, operating their own businesses, and holding upper level management positions in large corporations. This kind of practical experience brings a unique perspective to the classroom.

BHSU also offers a four-year (120 credit hours) Bachelor of Science in Business Administration with a specialization in Accounting for students interested in corporate accounting. This degree also provides flexibility for students having prior academic credit and who wish to work towards meeting the 150-hour requirement for the CPA exam.

Enjoy The Experience

With 77 student organizations at BHSU, you will have the chance to develop leadership skills! Join a student organization in business to enhance your business degree:

Buzz Marketing, Financial Management Association, Pre-Law Association, Society for Human Resource Management, Students In Free Enterprise, Travel and Tourism Club

find your career:

Today's CPAs have numerous career opportunities in addition to public accountancy.

- Personal financial planning
- Forensic accounting
