

# 3 easy steps to your professional career

1

## Get your bachelors degree from BHSU.

While you earn your degree, you will take courses to help prepare you for acceptance to graduate school and professional programs.

**What is a pre-professional program?**  
A pre-professional program is designed for students who plan to enter a graduate or professional school after earning their bachelor degree from BHSU.

2

## Apply to and attend graduate school.

**What is graduate or professional school?**  
Graduate and professional school is the final step for those seeking a career in agriculture, law, or medicine.

**What if I am going into Nursing?**  
If you are pursuing a nursing program, you will graduate with a two-year associate degree from BHSU. The courses included in this degree are specifically designed to prepare for entry into the nursing program.

3

## Start a successful career as a professional.
