

Master's Degree Programs for education professionals

Expand your understanding of research and research-based practices and prepare for leadership positions beyond the classroom.

- Master of Education in Reading (**New to BHSU!**)
- Master of Science degree in Curriculum & Instruction (MSCI) with specializations in math, science, and technology

Master of Education in Reading (M.Ed.)

The K-12 Reading Specialist program is delivered in a cohort model online, with a practicum arranged in each student's home location in the last semester. The 35-credit program emphasizes professional practice in the field of reading and addresses all International Reading Association standards for reading specialists and literacy coaches. This online master's program in reading meets South Dakota and Wyoming's standards to prepare reading specialists.

Master of Science in Curriculum & Instruction (MSCI)

MSCI Instructional Technology

MSCI instructional technology cohorts take all courses online except for a practicum arranged in each student's home location in the last semester. Graduates are prepared to serve school districts as technology integrationists, but this program of study can also accommodate students not employed as P-12 teachers. Persons who work with adult learners in professional development roles in business or the military can enhance their use of instructional strategies through this program.

MSCI Math Specialist

MSCI math specialist cohorts take core courses online and specialization courses face to face in South Dakota locations. The program meets South Dakota requirements for the math specialist designation. Graduates are prepared to serve school districts as teacher leaders, math coaches, and math coordinators.

MSCI Science Specialist

MSCI science specialist cohorts take core courses online and specialization courses face to face in South Dakota locations. The program meets South Dakota requirements for the science specialist designation. Graduates are prepared to be school and district leaders in science.
