What Impact Similar Groups Have Made

From Monica (mother) - “This program is a critical program that keeps Andrew involved with his typical peers and continuing to mature in an age-appropriate fashion. He is almost 20 years old and without this program he would not have the opportunity to remain involved with peers his age, as all of his high school typical friends have gone off to college.”

From Andrew - “I love Mines Buddies. I keep the events on my calendar and am excited for each one. I am going to a play and a basketball game soon. I made a friend who goes with me to plays and concerts.”
