How to install **Mozy** on your Windows computer

Backups are an essential part of ensuring a healthy IT environment. The Help Desk does everything we can to avoid data loss, but we can't always predict or prevent drive crashes, virus, theft, damage, --or human error--and data can be lost. Mozy is one way to help recover from this disaster. Thank you for taking the responsibility to protect your data.

THIS GUIDE IS FOR MOZY ACCOUNT USERS. IF YOU NEED MORE DETAILED HELP, REFER TO HTTP://SUPPORT.MOZY.COM/DOCUMENTATION.

Account activation

- A. Create Account:

 Following the link in your email, create your mozy account and click "activate".
 - If you already have an account, skip to step two.
 - **B. Download and Run** the Backup Software. You can find the link in your welcome email, or refer to the user guide link above.
- A. Install the Software:
 Follow the prompts to install the Mozy client.

B. Enter your BHSU email address and password you created in step 1 to begin the scanning process.

Configure:

Once installed, configure Mozy by selecting which files and folders you want backed up --Or, just leave the default settings we have set up for you.

And that's it! ~Help Desk

Your administrator has created an account for you to use the Mozy backup service. To start using the world's best backup service, create a password, then download and install the Mozy backup software.
