

Connecting to BHSU-Secure Network for Windows 10

Click the network icon on the lower right corner of the screen.

Click the “BHSU-Secure” wireless network.

Check the “Connect automatically” box, and then click “Connect”.

Provide your credentials in the form of your email address. For example, jane.smith@bhsu.edu. The password should match your normal email password.

Click "Connect" to continue connecting to BHSU-Secure.

You will now see that you are connected to BHSU-Secure.

You should be prompted to install the Safe Connect Policy Key the first time you open a web browser. Click the blue “Download Now” button and run the ServiceInstaller.exe file to complete the install.

The screenshot shows the BHSU Yellow Jackets logo at the top. Below it, the heading "Download the Policy Key" is displayed. The text explains that a safe environment requires certain devices to install the Policy Key. A blue "Download Now" button is prominent, with a note to click it to install the key. Additional text mentions that the Policy Key validates system standards per the Acceptable Use Policy and provides a link to the FAQ for more information.

Once, you have installed the Policy Key, click the blue “I’m done installing” button. You will then be redirected to the Black Hills State University website. This indicates that you are successfully connected to the Internet.

The screenshot shows the BHSU Yellow Jackets logo at the top. Below it, the heading "Install Policy Key" is displayed. The text explains that a safe environment requires certain devices to install the Policy Key. A list of four numbered steps provides instructions for installation: 1. Save the file to your preferred directory. 2. After the download is complete, navigate to the file and run it. 3. Follow the instructions on the installer. 4. Click "I'm done installing" below. A blue "I'm done installing" button is located at the bottom of the instructions.

Please contact the BHSU Helpdesk if you have any issues at 605-642-6580.
