## Looking to bolster your language proficiency or delve into the literary tradition of your host country?

Some things to consider: when you go matters (for language learning) and where you study literature might matter less than you think. While all motivated students can become more proficient speakers of another language through a study abroad experience, studies show that the impact is most profound for students at the intermediate level (or higher). And if you are a literature major, don't forget to think outside the box on study abroad locations. You might fall in love with Spanish literature, Czech drama, or Italian poetry. Ireland, Scotland, and South Africa all have rich literary traditions (in English) as well.

If you need help finding specific courses that you need to take abroad, visit [studiesabroad.com/course-finder](https://studiesabroad.com/course-finder) and our expert advisors will be in touch with you with some program options!
