Transcend international borders and engage with scholars working on cutting-edge science and math research across the globe.

Study abroad will empower you to better collaborate in multicultural contexts. By studying and living with people from different cultural backgrounds, you will learn how to become more comfortable with ambiguity, respectful of difference, and cognizant of common ground. Pursuing coursework in an unfamiliar environment will also help you gain experience in problem solving and become more confident as you discover solutions.

If you are looking for courses with lab components, please keep in mind that labs are often built into courses abroad (rather than being a separate course). If this creates problems, you might want to consider arranging your schedule in such a way that permits you to take these courses at your home campus.

Are you looking for specific courses? Reach out to us and we can help you find the program that meets your academic goals and course needs.

Get hands-on experience abroad

An international internship through TEAN can help you stand out in the increasingly competitive job market. Available for a variety of majors, we offer full-time internships (in-person or online!) or add a part-time internship alongside your courses.

Discover internship opportunities available by visiting teanabroad.org/internships.

COURSES IN ENGLISH UNLESS OTHERWISE NOTED

The following list and chart represents only a sampling of available TEAN programs. To get more information on the programs shown, as well as information on all other program options, go to teanabroad.org/program-finder.

Sciences & Math

Featured Programs

AUSTRALIA

Brisbane

[Queensland University of Technology \(QUT\)](#)

- QUT's nursing programs is ranked in the top 50 in the world (QS 2020)
- The Cube (in QUT's Science and Engineering Centre) is an accessible, public space with one of the world's largest digital interactive displays, showcasing scientific and technological research

- Semester program
- Courses with local degree-seeking students
- **Sample Courses:** Practical Marine Science • Food Science • Pasture Science & Management

Sydney

[University of Sydney](#)

- Ranked 40th in the world and 22nd worldwide in life sciences
- The University of Sydney offers an internship program to study abroad students, providing work placements in either industry or academic research

- Semester or summer program
- Courses with local degree-seeking students
- **Sample Courses:** Embryology • Toxicology • Contexts of Health and Disease

FIJI

Suva

[University of the South Pacific](#)

- Study at the premier institution for higher education in the South Pacific
- Befitting its tropical environment with large, open-air buildings surrounding a lush courtyard, the school draws in students from across the region, making it highly multicultural

- Semester program
- Courses with local degree-seeking students
- **Sample Courses:** Quantitative Biology • Environmental Physics • Advanced Calculus

NEW ZEALAND

Christchurch

Lincoln University

- Known as New Zealand's specialist land-based university, Lincoln is situated on a 124-acre campus less than 30 minutes from the center of Christchurch
- Complete an internship for academic credit in agribusiness or food and wine

- Semester program
- Courses with local degree-seeking students
- **Sample Courses:** Animal Health • Soil Management • Biological Sciences

Dunedin

University of Otago

- The University of Otago is New Zealand's most research-intensive university and is the country's top-ranked university for research quality
- Students interested in field studies should consider geology and ecology studies at Otago
- Independent Study options available for advanced students needing coursework for degree completion

- Semester program
- Veritas Christian Study Abroad available
- **Sample Courses:** Organic Chemistry • Electromagnetism • Conservation Biology

Palmerston North

Massey University, Palmerston North

- Established as an agricultural college in 1879, Massey was awarded university status in 1964
- The university's veterinary science program is ranked 29th in the world and the agriculture program ranked 30th in the world (QS World University Rankings)

- Semester program
- Courses with local degree-seeking students
- **Sample Courses:** Animal Health • Behaviour and Welfare • The Fauna of New Zealand • Entomology

SOUTH KOREA

Seoul

Hanyang University

- Hanyang University is known for its innovative approach, state-of-the-art labs, and commitment to developing inventive and entrepreneurial graduates
- Courses are in English

- Semester, summer, and winter (J-term) programs
- Semester courses are with local degree-seeking students; summer and winter courses are with other visiting international students
- Veritas Christian Study Abroad available
- **Sample courses:** Number Theory • Research Methods • Nuclear and Particle Physics

Korea University (KU)

- 69th in the world, and 144th worldwide in sciences
- KU's buddy system pairs study abroad students with a Korean student during the semester program for an immersive experience
- Courses are in English

- Semester, summer, and winter (J-term) programs available
- Semester courses are with local degree-seeking students; summer and winter courses are with other visiting international students
- Veritas Christian Study Abroad available
- **Sample Courses:** Immunophysiology • General Chemistry Laboratory • Calculus with Lab

THAILAND

Bangkok

Mahidol University

- Ranked 142nd in the world for life sciences, and a top three school in Thailand
- The institution started as a hospital in 1888 and is now a top research institution in Thailand
- Courses in English through the international school

- Semester program
- Courses with international and local degree-seeking students
- **Sample Courses:** Statistics for Sciences I • Integrated Laboratory in Physics I • Discrete Mathematics
